Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The closest reference found, U.S. Patent No. 6,134,995 does not teach or suggest a handle for a hand tool having a handgrip configured to engage the gripped end of the handle, and which is disposed rearwardly of and which is movable relative to the rear segment so that the shank, and ultimately the cassette containing the bits, is accessible. Therefore, the art of record considered as a whole alone or in combination neither anticipates nor renders obvious, a hand tool comprising: a handgrip which is configured to engage the gripped end, and which is disposed rearwardly of and which is movable relative to the rear segment in the longitudinal direction to thereby bring said shank to one of the used, pick-up and retracted positions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
